

Abstract presentation

**"Ageing and Travel Behavior in the 21st Century".**

**Ton van Egmond**

Explanation of the - changing - characteristics of the aged in the 1950s, 1980s and 2000s. The focus is upon the Netherlands and other Western European countries. What is the relationship between these characteristics and travel behavior? What economic and social conditions influence travel behavior (e.g. changing retirement options)?

Presentation and discussion of some qualitative scenarios on ageing and travel behavior in the future.
